### Historical Performance

### 12 Months Rolling Income Yield

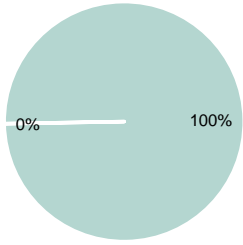

Performance has been calculated net of fees. Past investment returns are calculated using back tested model portfolios since 1 June 2020. Any historical returns, modelling or back-testing are not to be seen as a guide to or guarantee of future returns and individual client portfolio performance will differ to the fact sheet due to investment timing and minor variations in actual portfolio holdings over time. Historical data and market assumptions used in data construction are used as indicators only. Benchmarks are probability indicators for targeting and assessment purposes and are not guaranteed. Pyxis Investment Management (Pty) Ltd does not predict results, performances and/or financial returns and gives no assurances, representations, warranties or guarantees in this regard. Portfolios may involve a high degree of risk including, but not limited to, the risk of low or no investment returns, capital loss, adverse or unanticipated financial market fluctuations and inflation. The value of the portfolios may fluctuate daily as a result of these risks.

## Risk Measure Definitions

**Maximum drawdown**  
Measures the largest peak-to-trough decline in the value of the portfolio, before a new peak is achieved.

**Standard deviation**  
Measures the historical dispersion of rolling returns from the expected, or long-term average return.

**Information ratio**  
Ratio of the portfolio's return relative to the benchmark return per unit of volatility. Measures the portfolio manager's ability to generate excess returns relative to a benchmark, taking the manager's consistency into consideration.

**Sharpe ratio**  
Ratio of the portfolio's return in relation to the risk-free rate per unit of volatility. Measures the portfolio manager's ability to generate returns in excess of the risk-free rate, taking the manager's consistency into consideration.

**Risk free rate**  
We are currently using 2% as the risk-free rate in the above-mentioned risk measures.

**Annualised return since inception**  
Annualising the effective return from inception (01/06/2020) to the latest monthly point.
